

# Migration of Finacle suite of products

## Business Need

I & M Bank, Tanzania has chosen Finacle 7.x version and decided to implement for their business operations along with ATM Operations. The project was for implementing Finacle 7.x version by replacing their existing Finacle 6.x version

## Technology Solution

End to end implementation of CBS (Finacle) for the bank including integration of all other sub systems of the bank with CBS

## Technology Used

Finacle

## Implementation Process

- Detailed Requirement Gathering
- Business Process Definition
- Migration from Legacy system
- ATM interface
- UAT
- Customization & Interfaces
- Parallel run & Go Live support

## Implementation challenges

- Legacy loan details were not correct
- Rectification of data before and after migration

## Benefits

- Standardization of operations across I & M Bank
- Operational Improvements
- Cost reduction
