

Implementation of CBS (Finacle)

Business Challenge

Kalupur Commercial Cooperative Bank is running on different legacy systems for their business operations and on account of multiple systems, Bank had problems in operations and management information system. Bank has chosen Finacle 10.x version and decided to implement. The project is for implementing Finacle 10.x version at Kalupur Commercial Cooperative Bank by replacing their existing legacy and sub-systems. This is an on-going project

Technology Solution

End to end implementation of CBS (Finacle) for the bank including integration of all other sub systems of the bank with CBS. We have used Big Bang Implementation Strategy where implementation happened in single instance
